DETAILED ACTION

Applicant's election without traverse of Group I, claims 1-27 and 30 (now drawn to claims 1-27 and 42-59) in Paper No. 16, filed 9/15/02 is acknowledged. Upon consideration of the elected group and the new claims 42-59, it was determined that an election of species is necessary, which is presented below for the elected group.

Election/Restrictions

This application contains claims directed to the following patentably distinct species of the claimed invention:

1. Cell-type specific promoter (e.g., claim 6); pick one.
2. HRE element is present in what gene (e.g. claim 12); pick one if HRE element is selected as species #3. Otherwise, this is non-elected.
3. The type of conditionally inducible element (e.g. claims 11, 13-16); pick one.
4. Nucleotide sequence in vector (e.g. claims 18-20); pick one.
5. Silencer element (e.g., claim 9); pick one. Also indicate which transcription factor of claim 10 is bound by the species elected.

Art Unit: 1636

The combination of elected species should correspond to an operative expression vector because that will be the elected invention that is examined. A non-operative combination of elected species is subject to a rejection under 35 USC 112, first paragraph.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claims 1-27 and 42-59 are generic (for one or more of the different species).

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant

Art Unit: 1636

must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Conclusion

Certain papers related to this application may be submitted to Art Unit 1636 by facsimile transmission. The faxing of such papers must conform with the notices published in the Official Gazette, 1156 OG 61 (November 16, 1993) and 1157 OG 94 (December 28, 1993) (see 37 C.F.R. § 1.6(d)). The official fax telephone numbers for the Group are (703) 308-4242 and (703) 305-3014. NOTE: If Applicant does submit a paper by fax, the original signed copy should be retained by applicant or applicant's

representative. NO DUPLICATE COPIES SHOULD BE SUBMITTED so as to avoid the processing of duplicate papers in the Office.

Any inquiry concerning rejections or other major issues in this communication or earlier communications from the examiner should be directed to Terry A. McKelvey whose telephone number is (703) 305-7213. The examiner can normally be reached on Monday through Friday, except for Wednesdays, from about 7:30 AM to about 6:00 PM. A phone message left at this number will be responded to as soon as possible (i.e., shortly after the examiner returns to his office).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Dr. Remy Yucel can be reached on (703) 305-1998.

Any inquiry of a general nature or relating to the status of this application should be directed to the Group receptionist whose telephone number is (703) 308-0196.
